

The Perfect Body Worn Camera Package For Your Security Team.

We've put together everything you need to implement a body camera program quickly and easily at your organization.

What's included:

Reveal Body Cameras

Reveal's D3 and D6 body cameras are the most advanced body cameras in the world providing superb video quality, battery life, functionality, and ease of use.

The front facing screen has a proven calming effect on people being recorded and maximizes transparency with the public. When appropriate, the screen can also be used to view video back, without needing a smart phone or a PC.

Being able to direct the camera head allows the camera to be worn in various places on people of all shapes and sizes or used as a handheld camera to conduct searches.

PC with DEMS 360

DEMS 360 is our most advanced digital evidence management solution that allows you to manage your body camera footage simply and easily, hosted on a high-spec DELL all-in-one PC.

Docking Station

Simply dock your camera and DEMS 360 will do the rest. The forward-facing screen displays the booked out and uploading status of the camera so you can always see when it's good to go.

Storage

Securely store all your digital evidence, in one place on a secure, encrypted, Raid 1 external hard drive.

Get everything you need to start using body cameras from a one-off cost of \$5,989.

Minimal setup required  Fully supported  No hidden costs
